

WASHINGTON BASED IRP ESTIMATED MILEAGE REQUIREMENTS

Registrants who request registration for a jurisdiction where no miles accrued the preceding year (July 1 - June 30) must estimate the mileage. Zero miles will not be accepted. The following methods are only applicable when estimating. **If you accrued three or more months of actual miles during the preceding year, you must report those actual miles.** Do not use any of the methods listed below.

There are three acceptable methods of estimating miles:

- By using the Washington Estimated Mileage Chart (See Method 1)
- By using your own calculations (See Method 2)
- By using a combination of the two methods

METHOD 1

If you have insufficient information to calculate your own estimate, use the figures set forth below. **Note: The chart miles are for one vehicle. If multiple vehicles are in your fleet, multiply the chart miles by the number of vehicles in your fleet to arrive at your estimate.**

METHOD 2

If you know your proposed route of travel, you must provide sufficient information to the department to justify the estimated mileage for **each** jurisdiction. Substantiate those miles by submitting details of the proposed operation, location, highway, distance to be traveled and number of vehicles in your fleet. This information must be submitted with your application to operate in additional states or Canadian Provinces.
